

Attenda

Attenda® Series

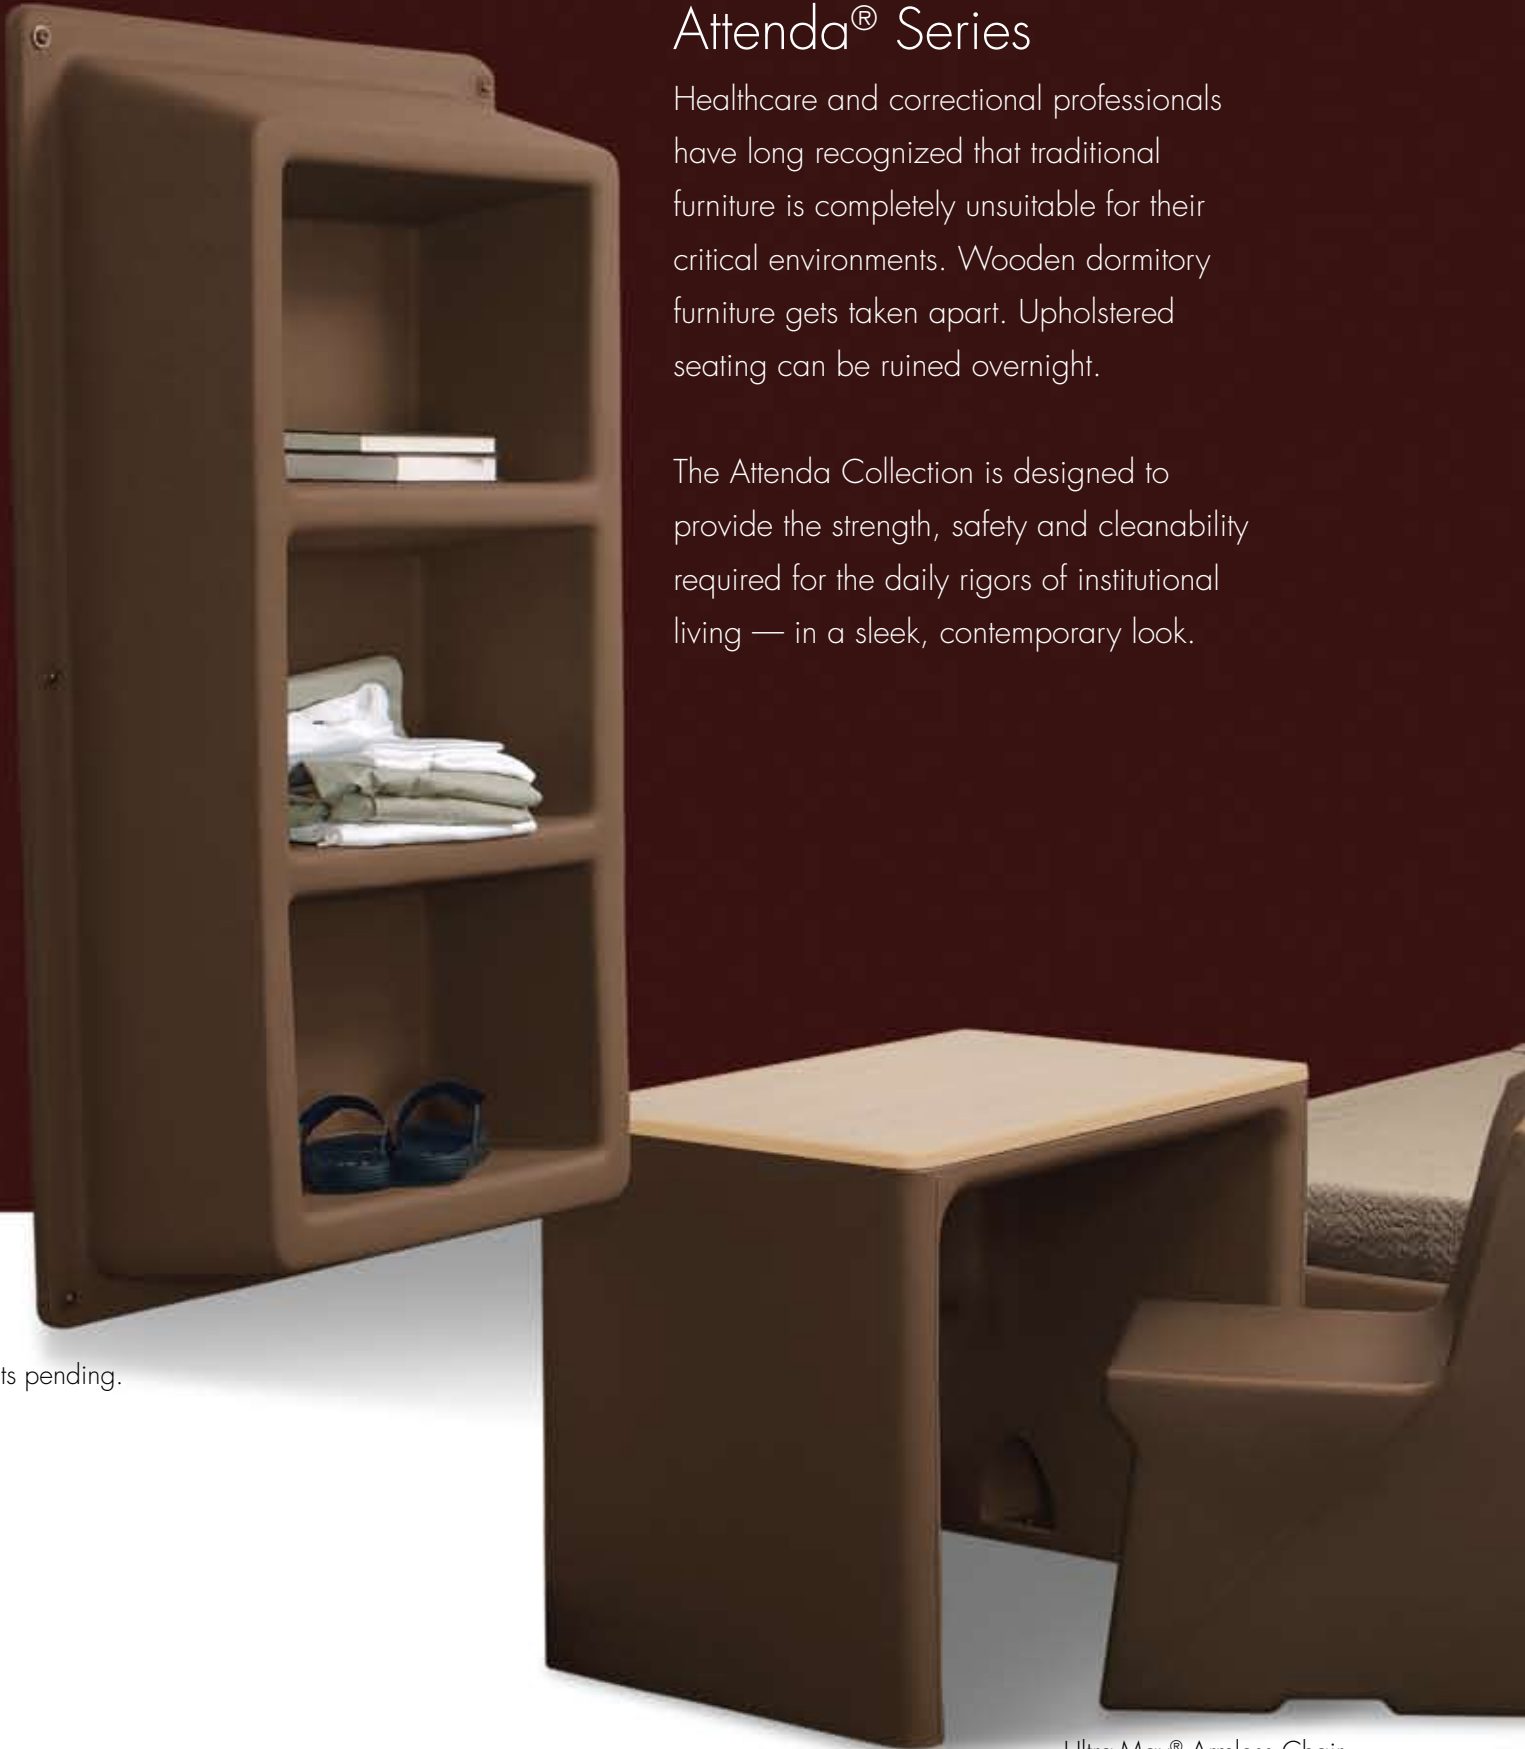

Attenda® Series

Healthcare and correctional professionals have long recognized that traditional furniture is completely unsuitable for their critical environments. Wooden dormitory furniture gets taken apart. Upholstered seating can be ruined overnight.

The Attenda Collection is designed to provide the strength, safety and cleanability required for the daily rigors of institutional living — in a sleek, contemporary look.

Patents pending.

Ultra-Max® Armless Chair

Safe, Secure...and Built to Last

The key to Attenda's strength and durability is its advanced construction. Attenda products are designed and engineered for intensive-use applications in critical environments. Molded in specially formulated, high-impact, fire-retardant polyethylene, each Attenda product is filled with rigid polyurethane foam for increased durability and sound absorption. They are solid as a rock, yet feature seamless construction with rounded corners for added safety and security. Each piece is designed to be attached flush to the wall or floor, limiting the ability to hide contraband or create a tie-off.

Fluids Don't Faze Attenda

Your maintenance staff knows that fluid absorption can wreak havoc with furniture and create a hazardous environment. Attenda's rugged, exterior skin is seamless and impervious to fluids – from blood and urine to industrial cleaners. The non-absorbent, hard-shell construction simply leaves no place for fluids to go. Chronic maintenance problems are washed away!

An Attenda Bed for Every Need

There's an Attenda product for every residential need. The cornerstone of the collection is the Attenda bed — designed and engineered to exceed the expectations of practitioners who have tried everything. The Attenda bed mounts in a corner, against a wall or free standing. Sturdy and seamless, the Attenda bed gives fluids, contraband and bedbugs no place to go and nowhere to hide. Raised lip around the bed deck pools fluids for easy clean-up. An optional wall-mount headboard adds a touch of wood-grained style, with institutional durability.

Sized to accommodate 36" x 80" mattress.

Attenda Bed Options

For more critical applications, add heavy duty restraint rings that mount with through-bolts right to the floor – and serve as connector points for your restraint straps.

Optional non-removable floor glides allow Norix Restraint Rings to be used without bolting beds to the floor. Use with or without sealed bottom option.

Space Saver Combos

The new Attenda Space Saver bed has a smaller footprint to maximize unencumbered floor space in the room – sized to accommodate a 27" x 75" mattress. Bolts securely to the floor.

New wall-mounted Attenda Shelf is sized to fit above the head end of a Space Saver bed. Or, use as a bookshelf above an Attenda desk.

Attenda beds are available with optional sealed bottom, for use when beds are not bolted down.

Rings flip up and stay vertical – so staff can easily maneuver around the bed.

A Room Full of Choices

The Attenda Desk has a hard, smooth writing surface, permanently affixed to the molded base with tamper-proof hardware. A high-pressure laminate top features a durable molded edge, rounded for safety and security. The floor-mounted desk includes a built-in modesty panel. The Attenda Stool completes the desk ensemble.

Add a nightstand with open compartments for storage of personal articles. Wall-mounted shelves come in three sizes, to keep everything in its place, yet visible to staff.

Attenda Wardrobe... the Revolutionary Solution for Personal Storage

The new Attenda Wardrobe is engineered specifically for intensive-use environments, with advanced safety and security features (patents pending).

- The wardrobe bolts securely to the wall with 6 connection points. Designed for use with security caulk (caulk groove on bottom and back surfaces).
- A molded-in J-channel accommodates clothes hangers with NO tie off opportunity.
- A 270° continuous piano hinge allows door to fold flat to the side. Factory-installed hinge attaches securely with tamper resistant hardware (steel-to-steel connections.) Specify right or left hinge. (Or, order wardrobe with no door).

- Available with wing knob cam latch, or keylock.
- Rounded corners and sloped top for added safety and security.
- Includes integrated bottom shelf and shoe cubby.

If you've tried the rest, and can't afford to be let down again, make the move to Attenda. Furniture that's designed for your critical environment — yet safe for residents and staff alike. Furniture that's built to last — and look good doing it — year after year.
