CommandMaster® Series

NORIX[®]
INTENSIVE USE FURNITURE

CommandMaster® Series

Imagine having a comfortable work chair that you can sit in all through an 8 hour shift, day after day, year after year, and it's still doing what it's supposed to do 15 years later. Now imagine there are two other shifts using the same chair. Yeah, that's right. . . 24 hours a day, 7 days a week, month after month, year after year.

The CommandMaster® Series from Norix is designed to withstand the rigors of intensive use, day after day after day. It's made with a steel seat pan and backrest inner structure so you don't have to worry about breakdowns, or service calls, or loose seats. It has a 15 year warranty that says so. It also comes in sizes to fit you and your task.

Strength, Size, Comfort, Looks

The 5-arm cast aluminum star base provides a solid platform for the heavy duty gas assist seat adjustment. The back and armrest supports are $\frac{1}{4}$ " thick heat-treated steel. The highly resilient contoured foam is covered with good looking, super-tough 600,000 cycle extended life fabric that has a stain resistant anti-microbial Teflon® finish. You can choose from eight attractive upholstery colors or a super tough black polyurethane skin we call Nocerus Hide.

Pick your size from Standard Supervisor or Oversize Supervisor for larger frames or those packing utility belts. Or, perhaps you'd prefer a stool height chair or an adjustable stool without a back for sit-stand applications.

The seat height adjusts. The back adjusts. The lumbar support adjusts, and if the chair has arms, they adjust. All adjustment and all components exceed industry performance standards and if necessary, all parts including seats, arms and backs are field-replaceable for easy renewability.

When you're tired of paying exorbitant prices for pretty chairs with fancy designer names, come on over to CommandMaster®.
