

Oasis™ Series

Oasis™ Series Cluster Seating

If your critical environment demands a more secure solution for cluster seating, your search is over. The new Oasis™ Series is designed and engineered specifically for institutional environments like dayrooms, dining halls and visitation areas, where safety and security are vital. Oasis is perfect for situations where users need more back support than traditional stools provide. Choose from eight popular seat colors.

Safety & Comfort

Oasis' innovative swivel seats allow easy access and provide the comfort of full lumbar support – ideal for female and geriatric users. The molded polyethylene seat shells are durable and easy to clean. Seats attach securely to reinforced, heavy-duty swivel plates with all-steel, tamper-resistant connections.

Patents pending.

Strength & Security

A sturdy 14 gauge steel frame gives Oasis its rock-solid foundation. The rugged frame provides seat support and understructure for the table top.

The bottom of the vertical seat tube has a fully welded plate that holds either a large-stem adjustable glide or an enclosed, non-removable anchor bolt for floor-mounting.

ADA Table

Table Tops Your Way

Designed specifically for intensive-use environments, the Oasis table top delivers superior performance, day in and day out, year after year. High-quality laminate surface features a rounded edge that is pressure-fused to the core with a specially formulated, highly durable molded urethane material. Edges are permanently affixed to the top, making it highly sanitary – ideal for food service applications. Or, choose a stainless steel inlay with the same durable edge. Both are available with a game top pattern. Also available in a special ADA version with a reinforced 72" long table top.
