Fabrication:

Base: Slightly textured maintenance free surface allows for easy cleaning.
Top: Selected material permanently bonded to a core of 45 lb. density particle board with permanently embedded T-nuts for securing top to base.

Material:

Base: Rotationally molded, specially formulated, fire-retardant, high impact polyethylene with ultraviolet light stabilizers (to reduce fading.)
Laminate Top: Decorative high pressure laminate sealed with a specially formulated highly durable Slammer Stone edge. Edge is radiused for safety and pressure fused to the top rendering it permanently non-removable and highly sanitary. 1 1/2" thick edge profile.
NorStone™ Top: Specialty formulated composite, compression molded to create a seamless, one-piece top and edge surface for superior impact resistance and durability. 22% of the material is soy based resin, a renewable raw material with 35% less harmful CO2 contribution and 3,800 BTUs p/ pound of resin less energy than standard petro chemical based equivalents. NorStone table tops can be used toward LEEDs Material & Resources' Rapidly Renewable Materials category, Bio-Preferred and Greenguard (42" round and square only).
