Fabrication & Material

Base Frame: Two angled, rectangle tubes of 3" x 1 1/2" support the top and are fully welded to 3" x 1 1/2" rectangle tube and 2" square tube "H" frame structures that rest on the floor, providing support and attachment point to the seats. The top of each angled member is fully welded to a 10 gauge, 7" x 17" steel plate with reinforced gussets for mounting the laminate top. A 13.4" x 15.8" seat support plate of 10 gauge steel is securely attached to a reinforced heavy-duty swivel mechanism, which in turn attaches securely to a 9" diameter steel mounting plate. The bottom of this plate is welded to a 2" square tube with a mounting-plate inset. For free-standing applications, the inset is threaded to accommodate a tamper-resistant, skid-resistant adjustable glide with a 1/2" diameter stem. For bolt-down application, the inset has a hole for the fully enclosed tamper-resistant bolt-down system. 14 gauge steel, 2" square tubing.

Laminate Top: 45 lb density M3 grade particle board, with permanently embedded T-nuts for securing the top to the base. Decorative high-pressure laminate sealed with a specially formulated, highly durable Slammer Stone edge. Edges are radiused for safety and pressure fused to the top, rendering it firmly attached and highly sanitary. 1 1/2" thick edge profile.

Stainless Steel Inlay Top: Durable type 304 stainless steel surface sealed with a specially formulated, highly durable Slammer Stone edge. Edges are radiused for safety and pressure fused to the top, rendering it firmly attached and highly sanitary. 1 1/4" thick edge profile.

Seat Swivel Mechanism: 12 gauge steel, powdercoated with 60° angle allowing rotation.

Seats: Smooth, non-absorbent surface is easy to clean. Molded-in threaded steel inserts provide for tamper-resistant, "steel-to-steel" attachment to reinforced seat support plate. One-piece rotationally molded, specially formulated, fire-retardant, high-impact polyethylene with ultraviolet stabilizers (to reduce fading.) Chemically resistant to blood, vinegar, urine, feces, salt solution and chlorine solution. Premium TruColor™ material is fully compounded for superior color, fire retardancy and quality assurance. Made in the U.S.A.

Maintenance

Laminate Tops: For wood products, Norix recommends using a mild wood cleaner for routine and regular cleaning maintenance. For the deep-scrub cleaning of tougher stains, marks and debris, we recommend the use of a regular-strength wood cleaner. **Stainless Steel Inlay Tops and Legs:** When cleaning stainless steel, Norix recommends the use of a cleaner made especially for stainless steel products. **Seats:** For routine and regular cleaning maintenance, Norix recommends the use of Simple Green® or an equivalent cleaning product. For the deep-scrub cleaning of tougher stains, marks and debris, we recommend the use of Clorox® Clean-Up® Cleaner + Bleach or an equivalent cleaning solution.
